

Ubud Tour 1

Batik, Silver, Waterfalls & Wildlife — one unforgettable day through Bali's cultural and natural heart.

FROM IDR 700K/HOUR

Batik Begins the Story

Bidadari Batik

Your day opens where Balinese identity is woven into cloth. At Bidadari Batik, intricate wax-resist patterns tell stories of ritual, nature, and heritage — transforming fabric into Bali's daily visual language. Watch artisans at work before the day turns to silver, then wilderness.

STOP 2

Celuk Silver Village

Drive into Celuk — Bali's legendary gold-and-silver smithing centre, where generations of craft pass through open workshop doors.

Watch & Learn

Artisans shape raw silver into jewellery using age-old hand tools

Celuk to Ubud: The Creative Belt

The road from Celuk to Ubud passes through Bali's most concentrated corridor of craft. Gallery-style streets showcase woodcarving, stone sculpture, and hand-finished souvenirs — nothing mass-produced. Every shop front is a studio, every item a slow-made original.

Tegenungan Waterfall

Nature interrupts the craft loop — dramatically.

Tegenungan's powerful cascade plunges into a jungle pool just south of Ubud. After a morning of workshops and galleries, the roar of the falls and the cool mist reset everything. Iconic photo spots, a short forest walk, and a completely different energy await.

STOP 5

Bali Zoo

Step into a living documentary. Bali Zoo brings you face-to-face with the island's most extraordinary wildlife — this is no side-quest, it's a centrepiece experience.

The Glass Bridge

One Day. Four Worlds.

From the wax-resist patterns of Bidadari to the silver workshops of Celuk, the roar of Tegenungan, the living wildlife of Zoo and Bird Park, and the vertiginous thrill of the Glass Bridge — this is Ubud's full spectrum in a single day.
