

Ubud Tour 3

ATV Adventure · River Rafting · Tirta Empul · Kanto Lampo

700K · 10 HOURS

Safety First, Adventure Always

Every great Bali adventure begins with the right mindset — and the right gear. Your guide will walk you through safety briefings and equipment checks before a single wheel turns, so every moment of the day feels exhilarating rather than overwhelming.

ATV Adventure: Jungle Tracks & Waterfall Moments

Off-Road Terrain

Twist through muddy trails, forest tunnels, and rugged jungle paths on a powerful quad bike.

Scenery En Route

Your path winds past waterfalls and river crossings — adrenaline and natural beauty, combined.

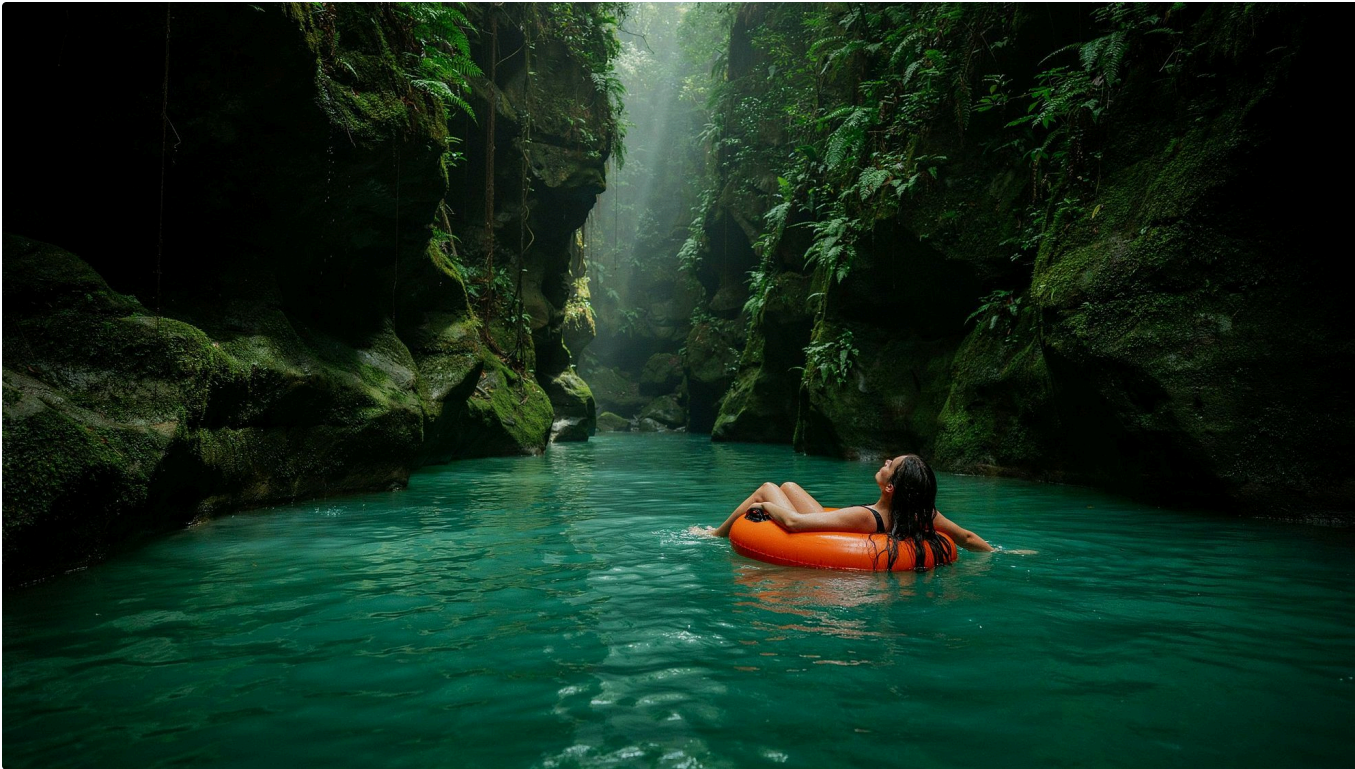

From Engine Roar to Flowing Water

As the ATV engines fall quiet, the river takes over. This natural transition marks a shift in pace — from the raw energy of off-road riding to the gentle pull of moving water through a lush jungle corridor. Take a breath. The next adventure begins.

River Rafting: The Hidden Cave Feeling

Float along a secluded jungle stream as the canopy closes overhead and the world narrows to cool air, rock walls, and echo.

Cave Systems

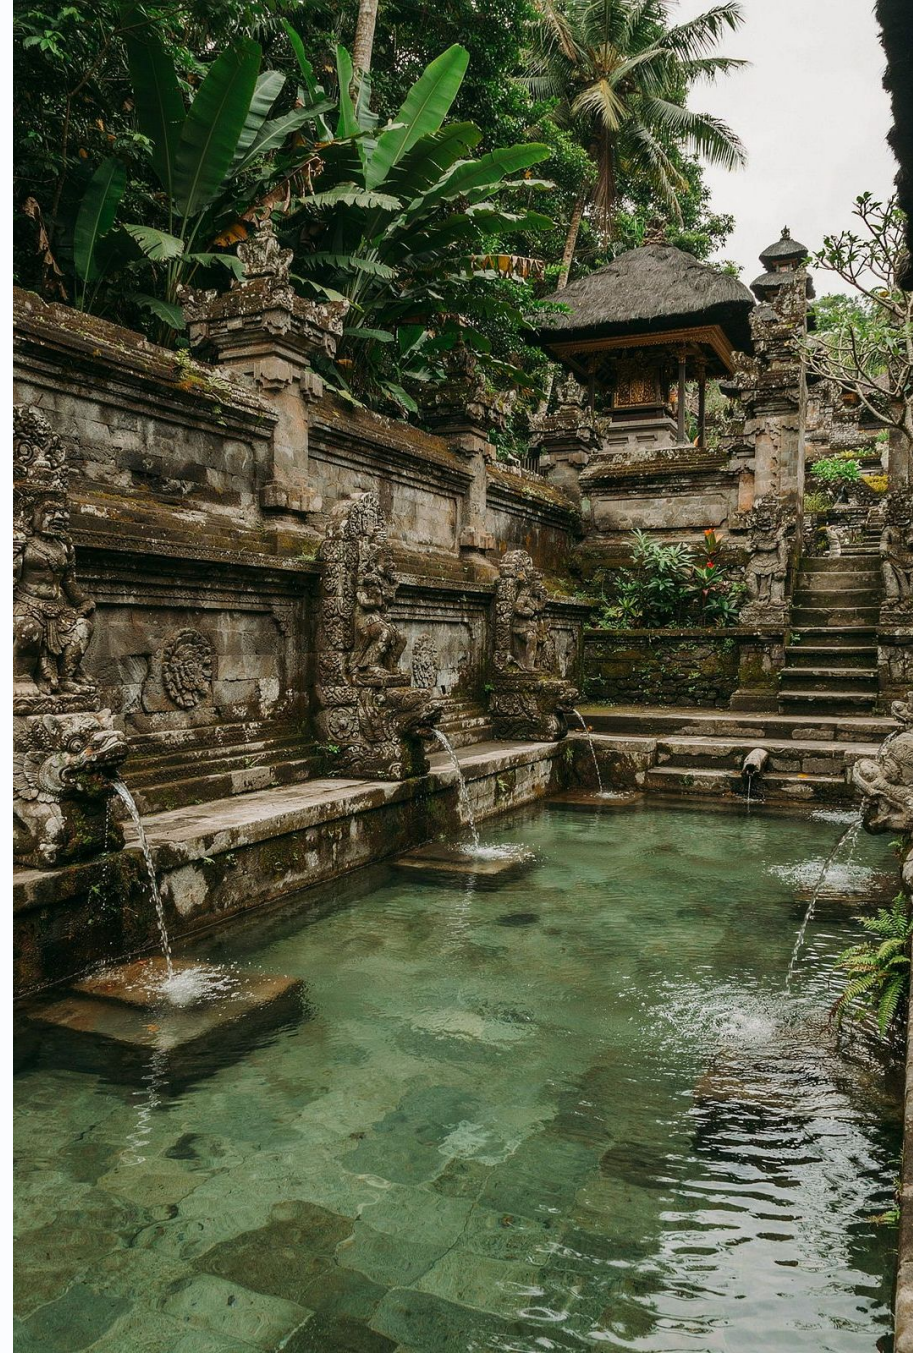

Navigate dramatic underground river passages carved through ancient limestone.

Nature's Soundtrack

Water drips, birds call, and the river whispers — a fully immersive sensory experience.

Tirta Empul: Sacred Spring Purification

Step into one of Bali's most revered spiritual sites — a **10th-century Hindu temple** built around a holy spring believed to grant purification and blessing. Join the ritual alongside worshippers, standing beneath the cool spring water in a moment of stillness, ceremony, and genuine connection.

Water as a Way of Life in Bali

Tirta Empul is more than a temple — it is the living heart of Bali's relationship with water. Springs, rivers, and rainfall shape the island's agriculture, spirituality, and community rhythms in equal measure.

Ritual Cleansing

Holy springs have anchored Balinese Hindu ceremony for over a thousand years.

Landscape Rhythms

Water connects the tour's moments — ATV rivers, rafting streams, sacred springs, and cascading falls.

Kanto Lampo: Tiered Limestone Cascades

Short Jungle Hike

A brief walk through the forest brings you to the base of Kanto Lampo's stunning stepped rock formations.

Stand Under the Falls

Wade into the natural pool and feel the cool cascade — the perfect refreshing finale to a full-day adventure.

Photogenic Flow

Layered rock shelves and crystal-clear water create naturally beautiful compositions at every angle.

Capture the Final Visuals

Kanto Lampo rewards those who arrive with time to spare. Morning light filters through the canopy at its most flattering angle, and fewer visitors mean the falls are yours to frame.

- **Go early** — better light, fewer crowds
- **Wide shots** capture the full tiered cascade
- **Close-ups** reveal the texture of layered limestone

Adventure, Cleansing & Unforgettable Green

Your day resolves in three distinct sensations — each one earned.

1

Adrenaline

ATV jungle tracks and off-road thrills

2

Immersion

River rafting through caves and canopy

3

Reset

Tirta Empul's sacred spring and Kanto Lampo's final cascade
